

October 10, 2008

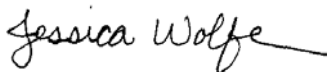

Dear Sir or Madam:

Please be advised that the TAXUS[®] Liberté[®] Paclitaxel-Eluting Stent System (Monorail[®] and OTW) has undergone testing to identify the presence of Natural Rubber Latex. The finished products are believed to contain no detectable Natural Rubber Latex based on a "Below Detectable" result from testing of the finished product and its packaging for Natural Rubber Latex content.

Please note that Boston Scientific Corporation has an ongoing initiative to identify the presence of various compounds, such as Natural Rubber Latex, in our finished products. Accordingly, the list of products believed to contain Natural Rubber Latex is dynamic and may change over time.

If you have any further inquires or if we may be of any further assistance, please do not hesitate to contact our Customer Service Center at 888-272-1001.

Sincerely,

Jessica Wolfe
Biocompatibility Specialist
Boston Scientific Corporation

Key:	
Present	Natural Rubber Latex is believed to be present in the product or its packaging based on a review of the bill of materials for that product and its packaging and/or testing of the finished product and its packaging. As required by regulatory authorities, each such product or packaging bears a caution regarding the presence of Natural Rubber Latex to alert the user and/or patients with a known sensitivity.
Not in BOM or BD	The finished product is believed to contain no Natural Rubber Latex based on: a review of the bill of materials for that product and its packaging; and/or a "Below Detection" result from testing of the finished product and its packaging.
